DETAILED ACTION

Allowable Subject Matter

1. Claims 2, 13-20, and 37-41 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or suggest the combination of elements claimed by Applicant.

US 5,544,249 to Yu discloses an ocular implant with the generally claimed shape and an anchoring member, but does not teach a plurality of longitudinally spaced openings or an anchor member disposed distally to where such openings would be located, wherein the anchor member is capable of resisting both forward and backward movement, since the claimed anchor member is disposed within tissue.

US 6,626,858 to Lynch discloses an ocular implant with longitudinally spaced openings at the outflow end, but does not disclose or suggest an anchoring member disposed distally of the openings, yet still embedded within the tissue of the trabecular meshwork (the location of the claimed outflow end). Adding an anchor member would require a substantial redesign of the Lynch device, for which there is no motivation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
